WE BELIEVE THIS THING CAN FLY

‘To some, Din Djarin’s *Razor Crest* may look more like a collection of surplus parts than a gunship. Isn’t that exactly what makes it so inherently *Star Wars*™? Patrolling Outer Rim planets, transporting bounties and all manner of dubious cargo, fighting starship battles – these things leave marks, and our favourite starships always look their part: bulky, rugged, scratched-up and yet flying against all odds. We love following the worn but trusty crafts, their pilots and passengers on their journeys through the galaxy. Like most other *Star Wars* starships, the authentically weathered *Razor Crest* becomes an extension of its owner’s persona and a character in its own right in *The Mandalorian*. In other words, a perfect candidate for a LEGO® *Star Wars* Ultimate Collector Series model. This is the way to build.’

Jens Kronvold Frederiksen
Design Director & Creative Lead,
LEGO® *Star Wars*™

MILITARY CRAFT-TURNED- BOUNTY HUNTER TRANSPORT

Before the rise of the Empire, ST-70 military crafts like *The Razor Crest* would typically have patrolled local territories. When we first encounter the vessel, however, it serves as the home and transport to Mandalorian bounty hunter Din Djarin (Mando). Despite its unusual shape, the ship's speed, manoeuvrability and versatility make it the ideal means of travel for Mando and Grogu as they evade the Imperial Remnant.

'Stop touching things.' - The Mandalorian

As we have learned, bounty hunting is a complicated profession. Transporting wanted fugitives across the galaxy in conscious condition is not always preferable. *The Razor Crest* has a built-in carbon-freezing chamber and storage units for just such purposes. The living quarters are equipped with rations and amenities for almost any type of passenger/prisoner. Since bringing Grogu onboard, Mando remains extra vigilant wherever they go. He keeps the armour cabinet fully stocked with a variety of blasters and thermal detonators for any battle situation.

BEHIND THE SCENES

Before computer graphics, camera tricks and handmade miniature models were used in the making of *The Original Trilogy* starship scenes. Despite having access to innovative graphics and video technology, the production team behind *The Mandalorian* wanted to stay true to the unique, handmade designs and craftsmanship the classic *Star Wars*™ vehicles are famous for.

Life-size parts of *The Razor Crest* were used in close-up scenes, and the team created intricately detailed miniature versions of the entire model for wide-range shots. Models were 3D printed, moulded and painted to give them the aged finish and classic army aircraft aesthetics of a vehicle that has seen its fair share of action. Models were then filmed in different light settings and angles, scanned and used in digital renderings.

The combination of the best of analogue and digital technologies add depth to the story and visual effects, completing the illusion of an intimidating vehicle in a tangible and authentic environment. So much so that we truly feel Mando's despair when the *Razor* is blown to smithereens!

WELCOME ABOARD THE LEGO® RAZOR CREST

Please familiarise yourself with the following LEGO® *Razor Crest* facilities, safety information and evacuation procedures. If you need help during a building emergency, please consult a crew member (Or LEGO Customer Service).

- Engine block comes off to reveal the interior
- Hatches on both sides open and you can place a minifigure in the opening
- Hydraulic rear hatch opens so you can store the Blurr or other precious cargo inside
- Escape pod has room for one minifigure. A porthole lets the passenger enjoy the view as they are hurtled across the vast emptiness of the galaxy or plunging into a planet's orbit
- Cockpit has a moving door - the whole section can be removed to reveal the sleeping quarters
- Removeable blasters cabinet, carbon-freezing chamber and freezing units

MEET THE MODEL DESIGNER

‘When *The Razor Crest* first appeared in *The Mandalorian*, it just looked too bulky and clunky to be able to fly! But it is, of course, everything we have come to know and love about *Star Wars*™ starships: amazingly fast, sleek and beautiful. I’m not surprised it’s become so popular with fans. Working on this model was a fun challenge. We wanted to get the huge engines right and include as much of a detailed interior as possible. In the series, the vessel has both sleeping quarters and a bathroom, but for this model, we prioritised the sleeping quarters to capture the atmosphere of the interior and focus on playability. Mainly due to the massive engines and the overall weight of the model, we reinforced the lower base structure with LEGO® Technic bricks to keep it sturdy. I think the result is very satisfying, and I especially encourage fans to look for references to iconic scenes! Some are not immediately visible on the finished model, but I hope you’ll have fun discovering them as you build.’

ACHIEVING THE AUTHENTIC STAR WARS™ LOOK

‘One of my favourite things about working with LEGO® Star Wars™ starships and vehicles is that they have so much story and personality. The sheer size of this Ultimate Collector Series model gave us a chance to include lots of intricate details on the minifigure characters as well as *The Razor Crest*, both inside and out. We used a combination of decorated elements and stickers to give the ship its rugged look, like the signature scratched orange paint stripes. I’m excited that we were able to create an updated and more detailed version of the LEGO Mando minifigure from his first appearance – now with arm print and helmet design looking more authentic than the previous version. And we get to introduce two new fan-favourite characters: the LEGO Kuiil minifigure, with an all-new head piece, and the LEGO Mythrol minifigure. Both are unique for this set. Enjoy building!’

Martin Fink,
LEGO® Star Wars™ Graphic Designer

Nous passons progressivement des emballages en plastique à usage unique aux emballages à base de papier. Au cours de cette transition, il est possible que vous trouviez à la fois du papier et du plastique dans nos boîtes.

Stiamo passando dalla plastica monouso agli imballaggi basati su carta. In questo periodo, potrete trovare un mix di carta e di plastica nelle nostre confezioni.

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puede que encuentres una mezcla de papel y de plástico en nuestras cajas.

Estamos a fazer a transição do uso de plástico descartável nas embalagens por embalagens à base de papel. À medida que progredimos nesta transição poderá encontrar um misto de papel e plástico nas nossas caixas

Átállunk az egyszer használatos műanyagról a papír alapú csomagolásra. Az átállás folyamatos, ezért előfordulhat, hogy papír és műanyag zacskót egyaránt talál sz a dobozainkban.

Mēs pārejam no vienreizlietojamās plastmasas uz iepakojumu, kurā izmantots papīrs. Pārejas procesa laikā kārbās var būt gan papīra, gan plastmasas daļas.

Facem tranziția de la ambalajele de unică folosință din material plastic la ambalaje pe bază de hârtie. Pe măsură ce avansăm, s-ar putea să găsești un amestec de hârtie și material plastic în cutiile noastre.

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

Wir stellen von Einwegkunststoff-Verpackungen auf Verpackungen auf Papierbasis um. Möglicherweise findest du in der Übergangszeit sowohl Papier als auch Kunststoff in unseren Boxen.

我们正在从一次性塑料包装向纸质包装过渡。在此过程中，你可能会发现我们同时采用纸质包装和塑料包装！
